## Waste Management Policy

### Policy Objectives:

#### The objectives of this policy are:

- To confirm that waste management is performed in accordance with all waste legislative requirements, including the duty of caring and planning for future legislative changes and to mitigate their effects.
- To provide clearly defined roles and work to facilitate reduce, reuse and recycle the disposal wastes in a cost-effective manner.
- To endorse environmental awareness in order to increase and inspire waste minimization, reuse and recycling.
- To ensure the safe handling and storage of wastes on college campus.
- To maintain campus with minimum plastic use.
- To promote holistic approach of waste management in the campus.

### Organization and Management:

**The responsibilities and organizational arrangements for this Waste Management Policy lie with a variety of personnel within the college.**

- Principal
- HOD's
- One faculty member from each department
- Student representatives.

## **Waste Management Methods:**

### **Solid Waste Management:**

- Every day all the academic buildings and other surrounding area in the campus are cleaned by Maintenance department.
  - Two bins system is followed for waste collection one for biodegradable and one for non- biodegradable.
  - Non-biodegradable waste is further segregated and disposed through municipality's garbage collection on a routine basis.
- Liquid Waste Management

- Liquid waste from the points of generation like to the hostel, canteen and toilet etc, is let out as effluent into sewage treatment plant.

### **E-Waste Management**

- Optimum use of all electronic equipment's through repair.
- Unused and non-repairable waste is disposed by auction method by our management by inviting tenders from eligible vendors from time to time
