

Namma Onam 2024

Paramekkavu College of Arts and Science celebrated the vibrant festival of Onam with a series of traditional and fun-filled events over two days: 11th and 12th September 2024. The celebration was designed to bring together students and staff, reflecting the cultural richness of Kerala.

On 11th September 2024, the festivities kicked off with exciting games and activities that showcased the spirit of community and fun. The first event, Sundarik pottuthodal, was a traditional game that involved participants running while holding an item (usually a coconut) balanced on their heads, testing both their agility and balance. This was followed by Chak Chattam, a fun activity where participants had to create intricate patterns with colored powders, symbolizing the artistic heritage of Kerala. Another popular event was Biscuit Biting, a quirky contest where participants had to bite into a dangling biscuit without using their hands, adding a humorous and competitive element to the day. The energy soared with Uriyadi, a fun-filled traditional game where participants, often in pairs, tried to break a hanging pot blindfolded, mimicking the playful spirit of the Onam festival. The day concluded with the competitive and thrilling Musical Chair and Tug of War events, where students showcased their competitive spirit, with the winners receiving loud cheers and applause.
